MindMedix AI

Healthcare Operational Intelligence

Based in Ancona, Italy

Founder: Sassi Hamdi

Problem

Hospitals face:

- • Staff shortages
- • Burnout
- • Operational chaos
- • Reactive planning

Solution

- Predictive operational intelligence for hospitals
- Non-clinical, GDPR-safe
- Focus on workforce & operations

Why Now

- AI adoption in healthcare rising
- EU digital health funding
- EHDS regulation
- Hospitals need efficiency tools

-

Business Model

- Hospital pilot collaborations
- Operational analytics reports
- Future SaaS subscriptions
- AI automation consulting

Current Stage

- Based in Italy
- Preparing first hospital collaboration
- Early institutional discussions
- Building partnerships

Vision

- Build European infrastructure for hospital operational intelligence
